

MEDJET NOW TRANSPORTING FOR COVID-19

Registration: www.Medjet.com/PascaleTravel

Medjet, the industry leading air medical transport and security response membership program for travelers, announced recently that members who fall ill from COVID-19, and become hospitalized while traveling in the contiguous United States, Canada, Mexico and the Caribbean, may now be transported to a home hospital of their choice. Medjet has successfully secured enough aircraft with isolation pods, and crews with proper training, to provide their members with the same hospital-to-hospital medical transport benefits that they have always provided, at the level of service their members have come to expect. Broader international transport for COVID-19 is not yet available, but members hospitalized internationally, who are not COVID-positive, remain eligible for transport to their hospital at home. If a member is hospitalized internationally for COVID-19, and requires continued hospitalization for post-infection complications once the infection has been deemed “clear”, they too remain eligible for transport. Medjet understands you are looking to travel internationally, and when they can safely and effectively accommodate their members around the globe, they will look to expand this offering.

MEDJETASSIST *Air Medical Travel Protection Membership*

MedjetAssist provides and pays for hospital-to-hospital medical transfer of a member if injury or illness occur during domestic or international travel, more than **150 miles from home**. Unlike health or travel insurance, which typically transports to the “nearest acceptable facility” if “medically necessary,” a Medjet Member is **transferred to their home hospital of choice**, regardless of medical necessity, for the cost of the membership and nothing more. Unlike an insurance company or platinum card benefits, Medjet has **no deductibles, no claim forms and no monetary caps on air medical transport costs**. And for travelers under age 75, there are no medical questions or pre-existing condition clauses.

MEDJETHORIZON *Medical Transport, Security, Crisis Response Membership*

MedjetHorizon includes all the renowned medical transport benefits of a MedjetAssist membership, plus worldwide travel security, crisis response and evacuation services. Members have access to a 24/7 travel security network for in-country response to a wide range of safety concerns and threats while traveling. MedjetHorizon can respond as soon as a member feels uneasy; there is no need to wait for government issued hard triggers or evacuation orders, which most travel insurance policies must wait for.
